

BROOKLYN.

BOOMING MR. GAYNOR

Big Effort to Run the Judge for Mayor of Brooklyn.

MASS-MEETING TO BE HELD.

The Object Is to Make a Nomination Irrespective of Party Machinery.

Justice Gaynor's mayoralty boom in Brooklyn is growing. The positive assurance from Mayor Schieren that he would not consent to run again is helping Judge Gaynor's prospects.

To-night a meeting will be held at the Clarendon Hotel, that city, to crystallize the independent voters into a solid phalanx for Gaynor. It is known that the Justice would rather be the nominee of the people of Brooklyn than of any machine organization. In the event of consenting to be a candidate, his supporters are trying to bring this about.

The meeting will be for the specific purpose of arranging details for a mammoth mass-meeting to be held in the rink in a few days to place Justice Gaynor in nomination.

The Republicans are looking around for a popular man to head their local ticket. Nearly every man in Mayor Schieren's cabinet can hear the buzzing of the Mayoralty bee. City Works Commissioner Alfred T. White is Mr. Schieren's personal choice. William Berri and Wm. C. Bryant and Fire Commissioner Wurster are prominent candidates.

Among the Democrats are mentioned Henry Heits, Marshall Driggs, William J. Coombes, Joseph C. Hendrix and Felix Campbell. The regulars are watching the progress of the Gaynor movement.

The Shepherds are divided about Judge Gaynor, some want him and others do not. Mr. Shepard is being talked of as a union candidate of the Kings County Democratic.

The meeting of the conference committee at the Hamilton Club will have bearing on the question.

Major W. E. C. Mayer, Justice Gaynor's brother-in-law, has been selected by the Democratic Association of the Seventh District of the Twenty-ninth ward to attend the City Convention. This is regarded by many as significant.

On this point Mr. Mayer this morning said:

"There was no significance in my selection and Judge Gaynor did not request any such thing. I have not seen Judge Gaynor since he went to the country, and have not communicated with him in any way except on purely business matters."

The Shepherds and Regulars are contented as far as the State ticket is concerned. The Shepherds are well satisfied at the treatment they received in Syracuse.

T-morrow night the Democratic primaries will be held in all the election districts of the city to choose delegates to the several local conventions.

The Republican primaries will be held on Monday night.

TROLLEY GETS ANOTHER.

Runs Over an Old Man, Who May Be Victim No. 122.

An unknown man, apparently about seventy years old, was run down by a Fifth Avenue trolley car on Adams street, near the corner of Nassau street, Brooklyn, at 11 o'clock this morning.

When picked up the man was unconscious and blood was streaming from several ugly wounds about the head. The victim was crossing the street walking towards Nassau street, when he was struck. There is a story that in Adams street at this point, and some of the trolley cars have been known to run over him.

Car 73 dashed along on its trip to the ferry as the old man came between the tracks. Before the trolley could stop, it was he was knocked down and dragged several feet.

He was removed in an ambulance to the Brooklyn Hospital. It is believed that he has sustained a concussion of the brain.

If he dies, his will be file number 122 that the trolley has taken.

SHE IS A SPARRER.

Miss Pfeiffer Promptly Knocks a Man Down for Insulting Her.

Miss Dora Pfeiffer, who lives at 118 Stillman avenue, Brooklyn, and acts as agent for her stepfather, James O'Donnell, was fined \$10 in the Ewen Street Court, Williamsburg, to-day for assaulting William H. Hayes.

Miss Pfeiffer served a notice of eviction on Hayes. He made an uncompromising remark and the young woman knocked him down with a blow on the side of the head.

Hayes arose only to receive another blow. The crowd in the vicinity of Justice Peterson's court, where the assault occurred, cheered the young woman. Hayes' attorney, Miss Pfeiffer arrested and she admitted the assault.

WILLIAM F. MERRILL'S WILL.

Missionary Societies Were Substantially Remembered.

The will of William F. Merrill, who died Sept. 16, was filed for probate with Surrogate Abbott in Brooklyn to-day. Mr. Merrill left \$3,000 to each of his children and the residue of the estate to his widow. At her death the money is to be divided between the Brooklyn Industrial School Association, American Missionary Society of New York, American Board of Foreign Missions and the American Home Missionary Society.

The Franklin Trust Company, of Brooklyn, is named as executor.

ASKS \$10,000 DAMAGES.

Pierre Aubrey Says Cummings Openly Slandered Him.

Pierre Aubrey is suing Thomas Cummings, before Judge Osborne in City Court, Brooklyn, to recover \$10,000 damages for alleged slander.

Aubrey alleges that April 7, 1894, Cummings openly accused him of keeping a disorderly resort.

Cummings denies the charge.

Dr. John S. Young's Funeral.

The funeral of Dr. John S. Young was held from the Presbyterian in 2nd street, Brooklyn, to-day. Dr. Young was sixty-three years old, and a prominent physician in Brooklyn.

Dr. Young was a member of the Episcopal Society, the Union Democratic Club and St. Patrick's Society.

Shoots Through Window. James, Henry Morris, fourteen years old, of the Avenue, was fired at by a man in the Williamsburg for going about the street and shooting at window panes with a slingshot. He was fired at by a man in the Williamsburg for going about the street and shooting at window panes with a slingshot.

REAR-END. The driver of the horse-drawn carriage, New York, No. 10,000, hit the rear of a motor car, No. 10,000, on the Avenue, on the Avenue, on the Avenue.

SHE SAID "A FOOL GIVETH."

Louis Gitselson Sues Pretty Minnie Grossman for His Presents.

"The course of true love never did run smooth," said Justice Rosen in the Fourth District Civil Court this morning when the case of Gitselson vs. Grossman was called for trial.

The case has been before the public for some time. Louis Gitselson, through a solicitor, sued Minnie and her father, a broker, because engaged to Minnie Grossman in April.

Minnie is a big, dashing, black-eyed brunette, with lots of coquetry in her composition. Gitselson is small and insignificant.

Up to the glorious Fourth they were, as Minnie said, like two young doves. Then they drifted apart because, she says, of the mercenary spirit displayed by Gitselson. He made her presents of a watch and chain, a diamond ring and a watch. He wanted them back, she said, and then he had her arrested.

This morning, on cross-examination, Gitselson said that they were to have been married on April 15. He related how he had given Minnie and her father a watch and chain, a diamond ring and a watch. He wanted them back, she said, and then he had her arrested.

"I love her," said Minnie, "and I love her yet." Minnie laughed.

Minnie took the stand and was examined by A. J. Kaimon, Gitselson's lawyer.

"Do you love Louis, Minnie?" asked the lawyer.

"I do, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

"I love him now, but I don't now," replied Minnie. "I love him now, but I don't now."

USE DEFECTIVE IRON.

Columns of Many New Buildings Declared Unsafe.

MADE OUTSIDE THIS CITY.

Local Iron Moulders Complain to the Building Department and Ask for an Investigation.

A startling statement was made last night in the Building Trades Section of the Central Labor Union by Delegate Perrine, of the International Iron-Moulders' Union, of this city and vicinity.

He said that most of the cast-iron work, and particularly the iron columns now being used in the construction of many large buildings in this city, were defective and dangerous to human life and liable to cause collapses similar to that in the Ireland Building in West Broadway.

Mr. Perrine also said that this defective material was manufactured by firms outside of New York and its immediate vicinity, and it was a serious matter with the iron-moulders here.

A committee of the Iron Moulders' Union, including Mr. Perrine and Delegate Gunn, of the Pattern-Makers' Union, arranged with Building Supt. Constable to examine the iron work for a large new building in Sixth avenue, and a clerk was sent by the Superintendent to take notes of any defects that might be discovered by the Moulders' committee and report to Mr. Constable.

Mr. Perrine said that the quality of the iron was found to be inferior to that required for buildings intended to support great weights and, defects were discovered in the castings.

Mr. Gunn said the castings were weak and there were brackets that would not support the weight of a half a ton, but were intended to hold a ton and a half. To put such material into a building intended to hold a great weight and which would be occupied by hundreds of persons would be dangerous in the extreme, he said, and he would not risk his life in it for thousands of dollars.

Mr. Perrine further explained that the action taken was for the protection of the iron-moulders' trade and that Supt. Constable had agreed to have the committee what he would do in the premises.

The action of Delegate O'Brien, of the Granite Cutters' Union, the Secretary of the Section was instructed to request the Superintendent of the Department of Buildings to require that all ironwork for buildings should not be placed in the city until the quality of the material and defects, if any, may be seen, and that practice should be in the iron industry.

Mr. Perrine was appointed as inspectors of ironwork.

BISHOP POTTER REFEREE?

Arbitrators to Ask Him to Act in the Derickson's Strike.

The Joint Arbitration Committee of the Master Stone Setters' Association and the Council of the Stone Industry will call on Bishop Henry Potter, of the Protestant Episcopal Church, this evening to secure his consent to act as referee in the negotiations for a settlement of the wage question between the Stone Setters' Association and the Derickson's Union.

The committee is to decide whether the Derickson's will receive \$3 a day of eight hours, instead of \$2.75, the present wages.

IN THE WORLD OF LABOR.
